Size: 8.25 x 9"  
Pages: 192  
U.S. Price: \$24.95  
ISBN: 978-0-615-18294-0  
Art/Creativity

Collage, like life, is an improvisational art form. *Living into Art* reveals the candid and often profound thoughts of ten artists as they explore the rich and diverse ways in which the practice of collage cultivates their creativity, and spiritually engages their lives. Through a unique and vibrant group studio in Sonoma, California, these individuals are weaving a web of community while also enriching the desire for creative fulfillment. Their stories, illustrated with each artist's own full-color artwork, make a satisfying blend of wonder and wisdom, personal expression, and inspiration.

- Encourages readers to reach for new possibilities in creative expression
- Contains more than 60 exemplary full-color collages
- Invites readers of all skill levels to collage using how-to exercises in each chapter
- Shows the benefits of applying imagination to everyday challenges
- Taps the large, fast-growing market for art, creativity and craft books
